<b>About the course/workshop</b>	<p>This workshop will introduce the simplest form of screen printing onto textiles using paper stencils. For example - design and print a design onto a t-shirt or bag - or print onto a length of fabric to take away and sew into something at home. We shall cut stencils in thin paper or newsprint. Each stencil will be approx A5 in size and can be printed in one colour.</p> <p>Emily will help each participant to develop their own prints based on each person's individual ideas. Come willing to experiment and gain a feel for the medium.</p> <p>The day course will give you the skills needed to be able to use this medium to make work in your own home.</p>
