Katie

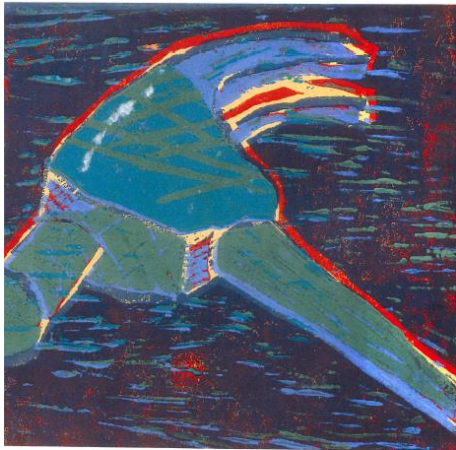

Sandy

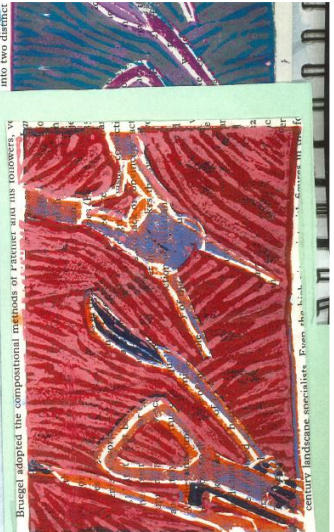

Amr

Esme

In my prints, it is clear that I successfully used composition to show objects in interesting positions. I also tried to use contrasting colours to show tones and shadows, shown in some of my prints, which were effective. Next time, I would attempt to use more detailed shading which ~~would~~ would stand out more and would experiment with more complementary colours, to add depth and bring my whole pieces together. Overall, I think I was mostly successful due to my composition and shading.

Maddy
