# A Level Psychology

# **Transition Pack**

- This pack contains a programme of activities and resources to prepare you to start an A-level in Psychology in September.
- You are required to complete **ALL** of the activities in this transition pack ready for the first week of the new academic year.
- Do not rush it. I advise that you complete different parts of the transition pack throughout the remainder of the summer term and over the summer holidays to ensure you are ready to start your course in September.
- The A Level in Psychology is a fun, embracing yet challenging qualification. It will develop your thinking skills and vastly expand your knowledge of human behaviour.
- Please bring your booklet to your first psychology lesson.

Mrs P Moon

(Head of A level Psychology)

# **COURSE DETAILS:**

**QUALIFICATION: 'A' Level** 

**DURATION OF COURSE: 2 years** 

**SPECIFICATION: AQA** 

**COURSE WORK:** No coursework, only exams

# PAPER 1: INTRODUCTORY TOPICS IN PSYCHOLOGY EXAM

- 2 HOURS DURATION COMPULSORY CONTENTY A THIRD OF THE A2 MARK OUT OF 96 MARKS
- Social influence
- ♦ Memory
- Attachment
- Psychopathology

# PAPER 2: PSYCHOLOGY IN CONTEXT EXAM

- 2 HOURS DURATION
- COMPULSORY CONTENTY
- A THIRD OF THE A2 MARK
- OUT OF 96 MARKS
- Approaches in psychology
- Biopsychology
- Research methods

# PAPER 3: ISSUES AND OPTIONS IN PSYCHOLOGY FXAM

- 2 HOURS DURATION COMPULSORY CONTENT PLUS THREE OPTIONS A THIRD OF THE A2 MARK OUT OF 96 MARKS
- Issues and debates in psychology

THEN CHOOSE ONE OPTION FROM EACH BLOCK. OPTION BLOCK ONE (CHOOSE ONE)

- ❖ Relationships OPTION BLOCK TWO (CHOOSE ONE)
- ❖ Schizophrenia OPTION BLOCK THREE (CHOOSE ONE)
- Forensic psychology

# QUICK GUIDE TO THE 'A' LEVEL SUBJECT

ALL THREE PAPERS EXAMINED IN THE SUMMER AT THE END OF THE A2 YEARS (MAY/JUNE)

# TASK 1: WHAT IS PSYCHOLOGY?

The British Psychological Society (BPS) who lay down the rules and regulations for all psychological activity in the UK define psychology as:

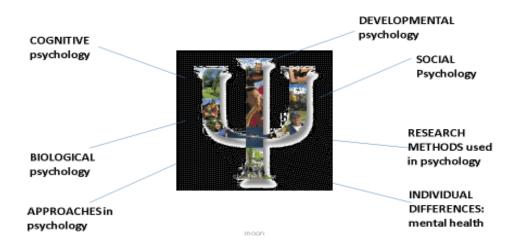

# **Psychology:** "the scientific study of the human mind and behavior"

#### **ANSWER THE FOLLOWING QUESTIONS:**

QUESTION	WRITE YOUR ANSWERS HERE:
1. Why have I chosen to study this subject?	
2. What does it mean by human mind and human behaviour?	
3. What are psychologists interested in?	
4. Why should we study human behaviour and or human mind?	

# **TASK 2: AREAS OF PSYCHOLOGY**

- There are many different types of psychology e.g. industrial organised psychology, educational psychology, clinical psychology, forensic psychology, sports psychology, health psychology, counselling etc. They will be placed in one the categories. These categories are designed to help people understand the context in which a particular psychology topic is likely to be encountered. As such, they should neither be seen as definitive, nor exhaustive.
- **RESEARCH THE FOLLOWING TYPES OF PSYCHOLOGY** and find out What they are and the types of behaviour they investigate.
- The following website will be useful in this task and don't forget to use other websites too!

https://www.all-about-psychology.com/types-of-psychology.html

- 1. COGNITIVE PSYCHOLOGY
- 2. DEVELOPMENTAL PSYCHOLOGY
- 3. SOCIAL PSYCHOLOGY
- 4. BIOLOGICAL PSYCHOLOGY
- 5. INDIVIDUAL DIFFERENCES/ABNORMAL PSYCHOLOGY

# TASK 3 – Approaches in Psychology

There are some core approaches to Psychology that you need to know for your A level – they are different ways of explaining human behaviours. Some of these are listed below: your job is to do some research on them using the internet (Wikipedia, while sometimes untrustworthy, is very good for this! There are also plenty of great videos on YouTube you can watch). You should find out: what does this word mean? How might it explain human behaviour? Identify one key researcher from this area – and why are they famous?

The Behaviourist Approach
The Social Learning Theory Approach
The Cognitive Approach
The Biological Approach
The Psychodynamic Approach
Humanistic Approach

## Task 4 – Psychological History

You need to create an A4 Psychological History timeline. On your timeline you should include a number of features such as the ones below (but not necessarily ONLY these). To make a high quality timeline, you will need to do some additional research into what each of the events actually refers to – and why it might have been important to the development of Psychology.

The Curious Case of Phineas Gage, Wilhelm Wundt's Psychology Lab, foundation of the American Psychological Association, Sigmund Freud publishes "The Interpretation of Dreams", Pavlov's Dog Studies are published, Carl Rogers publishes "Counselling and Psychotherapy", the first use of a brain scan in Psychological research.

This will be the focus of one of the topics we will study next year. A great link for this task is <a href="https://allpsych.com/timeline/">https://allpsych.com/timeline/</a>.

# <u>Task 5 – Researching Psychological Disorders</u>

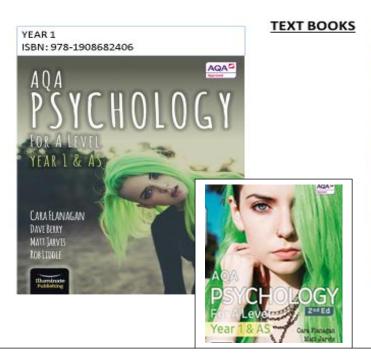

Your final task is to explore some psychology in the real world by looking at two of the following disorders. For each, you should create a short fact file: what is the disorder? What are the psychological causes? How do psychologists treat this disorder? Choose **one** to complete, but if you like you can complete more! The disorders are:

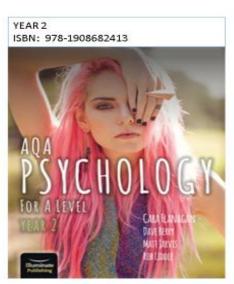

- Depression
- Obsessive-Compulsive Disorder (OCD)
- Dissociative Identity Disorder (DID)
- Anorexia Nervosa

- Schizophrenia
- Agoraphobia
- Antisocial Personality Disorder (APD)
- Obesity

#### **TEXTBOOKS:**

It is a requirement of the course that by the end of the second week in September you have purchased the compulsory Year 1 textbook. There are a number of available textbooks for this course – it is very important that the correct one is purchased. An image has been attached below.

There is a second edition of the year 1 text book which was published in May 2020 . I recommend that you purchase the new version of this book. ISBN-13: 978-1912820429

#### **RECOMMENDED WEBSITES:**

# Task 6: MATHS IN PSYCHOLOGY

#### Introduction:

In Psychology about 10% of the marks available are maths skills – in terms of overall marks this equates to about a grade. The maths skills are an equivalent level to that of GCSE maths/Stats— this booklet is to help you become more familiar with some of the mathematical content that you will need to know for the course.

# 1) Standard form:

Sometimes psychologists will come across very large or very small numbers. Because of very large numbers, it is often necessary to simplify these using shorthand, this is known as standard form.

## Write in standard form

- a)  $70 \times 105$
- b)  $40 \times 105$
- c)  $0.8 \times 106$
- d)  $0.4 \times 108$
- e)  $0.3 \times 108$
- f)  $0.7 \times 106$
- g)  $150 \times 104$
- h)  $480 \times 102$
- i)  $0.044 \times 105$
- j)  $0.073 \times 107$

# 2) Rounding to decimal places

# Round to 1 decimal place

- a) 0.374
- b) 0.798
- c) 0.393
- d) 0.584

# Round to 2 decimal places

- e) 0.136
- f) 0.138
- q) 0.464

# Round to three decimal places

- h) 29.9757
- i) 46.2317
- j) 79.0919

Round the numbers in the table.		2 decimal places	
Number			
0.181	0.2	k)	
8.928	I)	m)	
0.4923	n)	o)	
45.7053	p)	q)	

# 3) Rounding to significant figures

## Round to 1 significant figure

- a) 15
- b) 983
- c) 0.0097
- d) 1.9

# Round to 2 significant figures

- e) 0.133
- f) 0.0403
- g) 90054

# Round to 3 significant figures

- h) 0.6402
- i) 160.7

numbe rs in the table. <b>Numb</b>	cant	_	3 significan t figures	
er				
4.915	5	j)	k)	
5253	I)	m)	n)	
197.19 6	o)	p)	q)	
0.4063	r)	s)	t)	

# 4) Using percentages, fractions and decimals

Convert to a decimal:

a) 12

- b) 340
- c) 65%
- d) 153%
- e) 51.6%
- f) 41%

Convert to a fraction, reduced to simplest form:

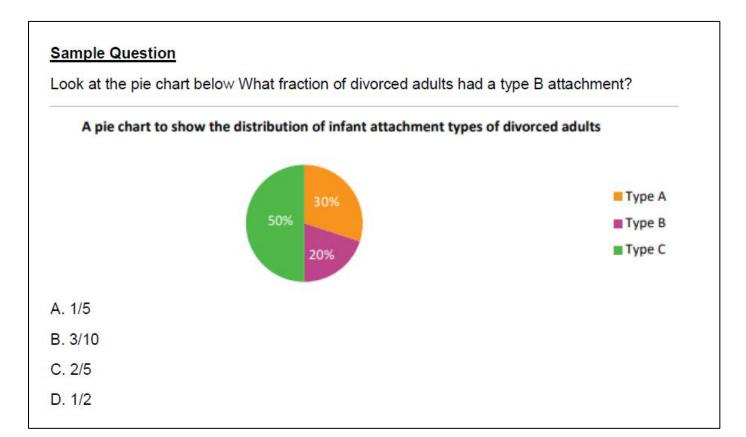

- g) 0.2
- h) 0.62
- i) 90%

Convert to a percentage

- j) 0.87
- k) 2.11
- I) 0.017
- m) 2.91
- n) 910
- o) 25

Convert to a fraction:

p) 67%

# 5) Ratios

# Simplify

- a) 5:10
- b) 15:5
- c) 5:50
- d) 52:56
- e) 52:12
- f) 52:56
- g) 18:22:12
- h) 16:52:48
- i) 42 : 15 : 24

#### Sample question

The findings from the study are presented below:

A table to show the number of participants who perceived the ambiguous image as a monkey or as a teapot from both conditions: image presented with animals and image presented with kitchen items.

	Perceived as a monkey	Perceived as a teapot
Presented with animals	15	10
Presented with kitchen items	5	12

- a) Identify and simplify the ratio of the number of participants who perceived a monkey in the first condition and the number who perceived a monkey in the second condition.
- b) Identify and simplify the ratio of the number of participants who perceived a teapot in the first condition and the number who perceived a teapot in the second condition.

#### **MATHS IN PSYCHOLOGY ANSWERS:**

#### 1) Using standard form

- a) 7×106
- b) 4×106
- c) 8×105
- d) 4×107
- e) 3×107
- f) 7×105
- g) 1.5×106
- h) 4.8×104
- i) 4.4×103
- j) 7.3×105

## 3) Rounding - significant figures

- a) 20
- b) 1000

n) 5250

c) 0.01

o) 200

d) 2

e) 0.13

- p) 200
- f) 0.040
- q) 197
- g) 90000 h) 0.640
- r) 0.4

- i) 161
- :) 40

s) 0.41

j) 4.9 k) 4.92

t) 0.406

- I) 5000
- m) 5300

#### **Sample Fraction Q:**

**A** 1/5

#### Sample Ratio Q:

- a) 3:1 (simplified from 15:5)
- b) 5:6 (simplified from 10:12)

#### 2) Rounding – decimal places

a) 0.4

j) 79.092

b) 0.8

k) 0.18

c) 0.4

I) 8.9

d) 0.6

m) 8.93

e) 0.14

n) 0.5

f) 0.14

o) 0.49

g) 0.46

p) 45.7

h) 29.976

q) 45.71

i) 46.232

### 4) Using percentages, fractions and decimals

a) 0.5

i) 9/10

b) 0.075

j) 87%

c) 0.65

k) 211%

d) 1.53

l) 1.7%

e) 0.516

m) 291%

f) 0.41

n) 90%

g) 1/5

o) 40%

h) 31/50

p) 67/100

### 5) Ratios

- a) 1:2
- b) 3:1
- c) 1:10
- d) 13:14
- e) 13:3
- f) 13:14
- g) 9:11:6
- h) 4:13:12
- i) 14:5:8
