13 November 2020

Dear Parent/Guardian

Notification of positive COVID-19 test result

I am writing to inform you that I have been notified of two Year 11 students testing positive for COVID-19. We received notification of one on Thursday evening and the other early this morning.

We have started contact tracing for these students, and with a substantial number of students already isolating until the end of next week, over 15 teachers isolating for a number of reasons and the operational issues of having such a mixed economy of 'in person' and 'remote teaching', **I have made the decision to collapse the Year 11 bubble with students returning to school on Monday 23 November. We will move to our Tier 2 remote learning programme which is on our website.** This is a decision I never want to make as a Headteacher but I must do what I feel is right for our students, both in terms of safety and providing continuity of learning.

I will be contacting The Department for Education, Public Health England and Public Health at the Local Authority today to discuss the situation and to confirm the action we have taken.

Please continue to note the following:

What to do if your child develops symptoms of COVID-19

If your child develops symptoms of COVID-19, they must not come to school and should remain at home for at least **10 days** from the date when their symptoms appeared. Anyone with symptoms will be eligible for testing and this can be arranged via <https://www.nhs.uk/askfor-a-coronavirus-test> or by calling 119.

All other household members who remain well, must stay at home and not leave the house for 14 days. This includes anyone in your 'Support Bubble'.

Further information is available at: <https://www.gov.uk/government/publications/covid-19stay-at-home-guidance/stay-at-home-guidance-for-households-with-possible-coronavirus-covid-19-infection>

The 14-day period starts from the day when the first person in the house became ill.

Household members should not go to work, school or public areas and exercise should be taken within the home.

If you require help with buying groceries, other shopping or picking up medication, or walking a dog, you should ask friends or family. Alternatively, you can order your shopping online and medication by phone or online.

Household members staying at home for 14 days will greatly reduce the overall amount of infection the household could pass on to others in the community.

If you are able, move any vulnerable individuals (such as the elderly and those with underlying health conditions) out of your home, to stay with friends or family for the duration of the home isolation period.

Symptoms

The most common symptoms of coronavirus (COVID-19) are recent onset of:

- a new continuous cough
- a high temperature
- a loss of, or change in, your normal sense of taste or smell (anosmia)

For most people, coronavirus (COVID-19) will be a mild illness.

If your child or anyone in the household does develop symptoms, you can seek advice from NHS 111 at <https://www.nhs.uk/conditions/coronavirus-covid-19/check-if-you-have-coronavirus-symptoms/> or by phoning 111.

How to stop COVID-19 spreading

There are things you can do to help reduce the risk of you and anyone you live with getting ill with COVID-19.

Do

- wash your hands with soap and water often – do this for at least 20 seconds
- use hand sanitiser gel if soap and water are not available
- wash your hands as soon as you get home
- cover your mouth and nose with a tissue or your sleeve (not your hands) when you cough or sneeze
- put used tissues in the bin immediately and wash your hands afterwards

Further Information

Further information is available at <https://www.nhs.uk/conditions/coronavirus-covid-19/>

Yours sincerely

Mr P Gibson
Headteacher
