Poetry Competition Winners

1st place: Natalia in Year 10:
Sunrise Tomorrow

2nd place: Isabel in Year 7:
My Vision of the Future

My vision is that,
Trees will still grow,
Rivers will flow
Into the deep sea
Where fishes swim free,

No icebergs declining,
Glaciers reforming,
And more polar bears roaming free,

Our planet is thriving,
All forests are surviving,
And the wind blows gently through the trees,

All animals are safe,
Resting happily in their natural place,
Free from hunger and disease,
Birds gracefully flying though the sky,

Insects all shapes and sizes,
Flying in the air or scuttling on the ground,
Cleaning up the earth as they go,

Humans have learnt where to live,
Without pollution and wars,
Looking after our beautiful world,

No more raging fires or floods,
And the weather and seasons
Are back as they ought to be,

Pollution is all gone,
And life carries on,
A triumph for the world to see

3rd place: Neha in Year 9:
A Strong Vision

Honourable mention: Syeda in Year 8:

If I could See Colour

If I could see colour,
It would be a dream come true.
I would see the bright sun and silver moon.
I would see green grass and fresh flowers.
Oh, how seeing colour would be an amazing power.

If I could see colour,
It would be great,
I would see the world with colour like my mate.
The world is full of colours like ruby red and sea blue.
I would do anything to see them all just like you.

I am not jealous or mad,
I am not angry or sad.
Sometimes I do mind,
But I think of those who are blind.
