Dear Parent/Guardian

Design & Technology Project Contribution

In Design and Technology students follow all aspects of the national curriculum to create exciting projects. To enable the Design and Technology Department to continue to provide a wide variety of opportunities for students to make and take home products they design, we ask for a voluntary contribution towards the cost of materials. The suggested annual contribution is £5.

Without your support we could not offer such exciting and practical projects. If you are happy and able to make a contribution, please make payment via our e-payment system **ParentPay**. This is a secure online payment system used by schools. If you require any assistance with ParentPay, please email:

parentpay@maidenerleghschool.co.uk.

Should the financial contribution create any problems, please do not hesitate to contact me.

Thank you for your support of the Design and Technology department.

Yours faithfully

Mr J Nash
Head of Design and Technology
