Dear Parent/Guardian

### **Year 11 Pre-Public Examinations (PPE) Results 2021**

As you are aware all Year 11 students received their PPE results on Friday and this week staff are providing detailed feedback and opportunities for improvement.

We are pleased with the outcomes of the PPEs which are in line with previous year's results. It was evident that the vast majority of students were well prepared and had taken the process very seriously.

In my letter in September, I stated that some students would complete a full or partial resit based on their outcomes.

In light of current developments with the Omicron variant, we have taken the decision that it is more important that students remain in their lessons and that rather than provide a central resit, more time for improvements will be provided within the classroom environment.

Where a student has significantly underperformed across a number of subjects, the Year 11 team will be meeting with these individuals to review their systems and routines for exam preparation.

If you have any specific queries about the PPEs, please contact me.

Yours sincerely

Mr S Bryant  
Head of Year 11
