Dear Parent/Guardian

### **Year 9 - Mathematics Set Changes for September 2022**

When students move from Year 9 into Year 10, we introduce an extra class in each year half. This means students are realigned from six groups into seven groups to give an improved student-teacher ratio. Due to the nature of the GCSE course and our progression through it, it is then possible to tailor the course more closely to the needs of individual groups.

The arrangement of the sets will be as follows (subject to change):

- Sets 1- 3 will continue to follow the higher tier course.
- Sets 4 & 5 will follow the foundation tier course but may be moved onto the higher tier course if we feel that success at this level is achievable.

There will be movement of several students, from the groups they were taught in last year, which will be reflected in the new timetables issued at the start of the next academic year. Any moves made have been planned to enhance the education of your child. Movement between sets will still be possible at regular intervals in order to accommodate students developing at different speeds and to place them in the correct set for optimum learning. Teacher assessment and results from interim classroom tests will inform the decisions to move students.

Yours sincerely

Mrs A Drazic  
Co-Head of KS4 Mathematics

Mrs H Williams  
Co-Head of KS4 Mathematics
