Dear Parent/Guardian

Years 7-10 – Important Update Regarding Mathematics Teachers

We would like to inform you of a significant change in the Mathematics department, which will take effect from the beginning of this term.

Commencing this week, you may observe alterations to your child's Mathematics teacher. This adjustment aims primarily to reduce the number of classes split between several teachers with the aim to create a more consistent learning environment for students. Furthermore, changes have been implemented to ensure that all classes benefit from the expertise of a specialist Mathematics teacher, eliminating the need for external cover, as has been the case for some groups last term.

Please note that not all groups have been affected. Students and parents can check their assigned Mathematics teachers using the MyChildAtSchool app or the Student portal, looking at their timetable from January.

If you have any concerns or questions regarding these changes, please do not hesitate to reach out to us at school via the office email address mesoffice@maidenerleghtrust.org. We value your feedback and are here to address any queries you may have.

Yours sincerely

Mr D Bell
Assistant Headteacher
