Dear Parents/Guardians

Year 10 - Mathematics Assessment – Wednesday 19 June 2024

We are writing to notify you of the upcoming mathematics assessment scheduled for Wednesday 19 June 2024. This assessment serves as a crucial tool in determining the appropriate tier of entry for our students and ensuring their placement in the correct Year 11 class.

It is imperative that students understand the significance of completing their SPARX homework diligently every week. Each SPARX task should be tackled comprehensively, aiming for a perfect score of 100%. Should they encounter any difficulties, students are encouraged to utilise the instructional videos provided or seek assistance from their class teacher. Students who consistently engage with SPARX tasks exhibit notable progress, as SPARX aligns with our curriculum and promotes regular recall of key concepts.

To further aid students in their preparation for the assessment, we have curated a selection of online resources accessible via the Mathematics Google Classroom page. Among these, we highly recommend the following:

- [Maths Genie GCSE](#) (for topic-specific revision)
- [Corbett Maths](#) (provides comprehensive topic-based revision materials)
- [Maths Genie Past Papers](#) (for practice with past examination papers)

Additionally, students are encouraged to utilise their feedback sheets from the previous PPE (Pre-Public Examinations) to identify and focus on areas requiring improvement.

We appreciate your ongoing support.

Yours sincerely

Mrs A Drazic
Co-Head of KS4 Mathematics

Mrs H Williams
Co-Head of KS4 Mathematics
