12 July 2024

Dear Parent/Guardian

Year 9 Curriculum Day

We are pleased to inform you that on Tuesday 16 July, our school will be holding a Curriculum Day exclusively for our Year 9 students. This day is designed to provide students with a unique and immersive experience in one of three creative areas: Art, Design Technology, or Performing Arts.

Each student has chosen their creative project based on their personal interests within these fields. Throughout the day, they will have the opportunity to develop their knowledge and understanding of their selected project, working hands-on to develop new skills and working as part of a team.

To further enrich this experience, we have arranged for a careers specialist to join us for the day. The specialist will provide valuable insights and information about career paths related to the creative industries. This will help students understand the potential opportunities available to them in the future.

For any queries regarding the day, please contact the Head of Year 9, Mrs Yakhya and Mrs Sultana.

Yours sincerely

Mrs A Morgan
Deputy Head
